EXPERIENCE

P3 Media – Web Developer   June 2020 - Present

➢ Increased overall performance of stores with techniques like lazy loading, serving different image sizes based on viewport, extracting critical CSS

➢ Made a gift with purchase feature that generated over $1.5 million in total revenue within the first couple hours of launch

➢ Debugging JavaScript and CSS bugs across different platforms and browsers (Chrome, Firefox, IE11, iOS…)

➢ Authored a carousel promotion bar web component to reuse for multiple stores

➢ Suggested UI/UX improvements for web designs and translated them into working, quality code

➢ Designed a Shopify dev workflow for the team which improved development speed and reduced the likelihood of bugs

Promotions Slider Web Component   Link

➢ A reusable carousel web component for ecommerce stores to display their ongoing promotions

➢ Allows for configuration, so developers consuming the component can style it to the store's theme

➢ Wrote tests for the web component to ensure it was rendered correctly with its configurations in the DOM

➢ Integrated CI using a GitHub Actions workflow to automatically build code in repository and run my tests

Calendapp   Link

➢ Web application, inspired by Calendly, that allows people to schedule meetings easier

➢ Built the admin dashboard UI, consumed Google API services like Google Sign-In, Calendar API, Gmail API for application

TECHNICAL SKILLS

Accessibility – Adobe XD CSS3 – Express.js – HTML5 GitHub Flow & Actions JavaScript – jQuery – Liquid Node.js – React.js – Responsive Web Design Sass – Web Components

OPEN-SOURCE

Created an example for Material-UI documents for grouped column headers

EDUCATION

University of Ontario Institute of Technology

Bachelor of Science in Biological Science

INTERESTS

Art, Board Games, Basketball, Cooking, Nature, Traveling
